Call for Abstracts

The Geological Society of the Philippines (GSP) is inviting participants to attend the “16th Regional Geoscience Congress of Southeast Asia (GEOSEA XVI)” on December 6 to 8, 2021.

We are also inviting paper presentations in the following session topics:

- Future energy resource exploration and the role of unconventional hydrocarbon deposits
- New technologies for renewable energy resources
- Trends, challenges and opportunities for petroleum exploration in Southeast Asia
- Developments in economic geology and strategies in the search for blind ore deposits
- Innovative green mining technologies
- Rehabilitation of degraded and mined-out areas
- Evolution of the South China Sea basin: Geodynamic framework, geohazards and resources
- Paleobiogeography of Southeast Asia: Paleontological and stratigraphic evidences
- Paleooceanography and the evolution of Southeast Asian seas
- Marginal basins, paleo-plates and tectonics of the Western Pacific
- Subduction zone geodynamics: Recent data from petrology, geochemistry, geophysics
- Geohazards, disaster risk reduction and climate change adaptation
- Engineering strategies to minimize the impacts of geohazards
- Advances in characterizing and monitoring landslide hazards
- Recent perspectives in seismotectonics and crustal deformation studies
- Understanding volcanoes: Magmas and other related hazards
- New solutions to engineering geology and geotechnical problems
- Sustainable geotourism and geoparks development in rural areas
- Karst landscapes: Formation, resources and hazards
- Strengthening the ASEAN network and harmonizing regional initiatives
- Strategic roles of ASEAN geologists in the new normal

Abstract submission will be done through the Virtual GEOSEA 2021 website at geosea2021.xperto.org/abstract_registration.
