

INTRODUCTION

DEPARTMENT OF MINERAL RESOURCES (DMR)

Ministry of Natural Resources
and Environment, Thailand

OUTLINE

1

- About DMR

2

- DMR Activities

3

- DMR Services

4

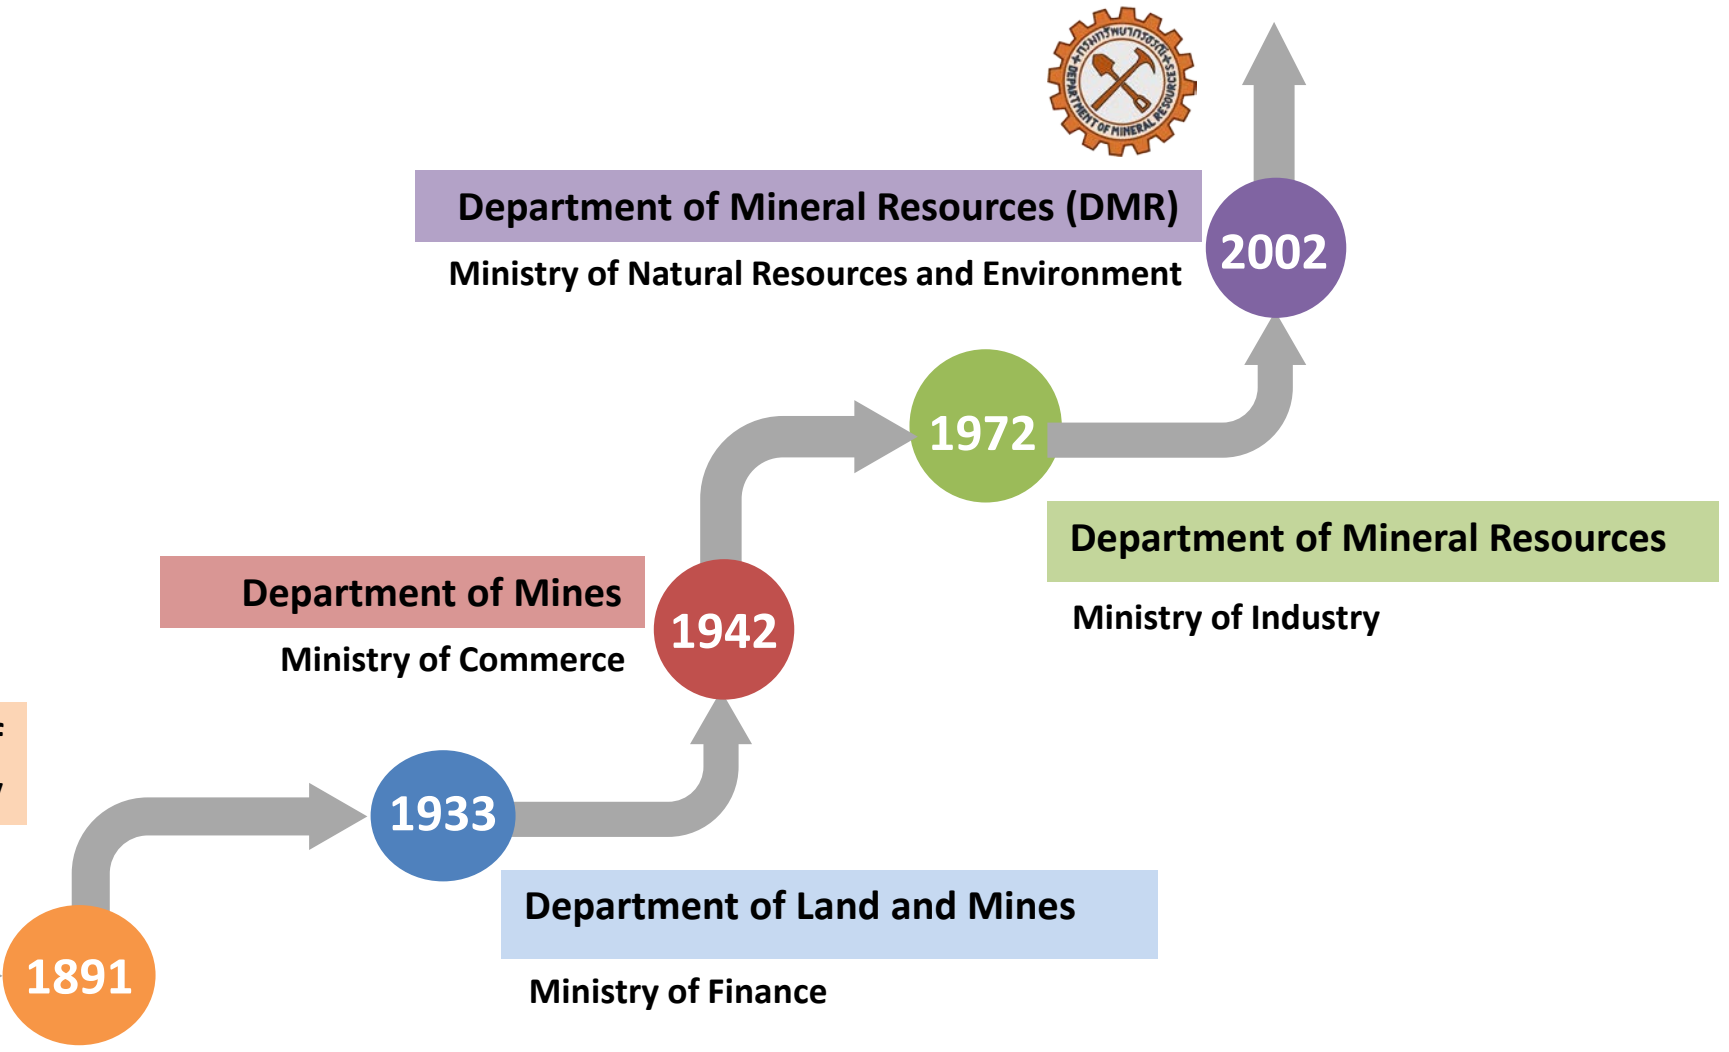

- DMR International Cooperation

HISTORY

The Royal Department of Mines and Geology
 Ministry of Agricultural,
 Ministry of Interior,
 Ministry of Finance

His Majesty King Rama V officially endorsed on **1 January 1891**

VISION & MISSION

VISION

To be a reliable organization of Thai and government on geological knowledge and participatory mineral resources management leading the country towards the security of mineral resources base with the balance of conservation and utilization as well as good quality of life of people

MISSION

- Provide guidelines for determining areas and formulating policies, plans, and measures in management of mineral resources, fossils, geological heritage, geopark, environmental geology, and geohazard including developing public participation mechanisms.
- Strengthen corporation and integrate working with both national and international network partners.
- Build capacity of personnel, tools, and equipment, improve research system responding to the development including apply digital technology for efficient management.
- Propose to revise, amend or add laws, regulations, and measures under responsibility to be corresponded with situation.

STRATEGY

Strategy 1:

Reform mineral resources management and speed up both on-shore and off-shore exploration

1

Strategy 2:

Mitigate the impact of geohazard caused by natural disasters and climate change

2

Strategy 3:

Promote the conservation and management of geological sites and mineral resources

3

Strategy 4:

Develop technical database and disseminate information to the public

4

To be a reliable organization of Thai and government on geological knowledge and participatory mineral resources management leading the country towards the security of mineral resources base with the balance of conservation and utilization as well as good quality of life of people

ORGANIZATION STRUCTURE

Director General

Inspector General

1st Deputy Director General

2nd Deputy Director General

2 Senior Experts

Geotechnology Division

Geological Survey Division

Environmental Geology Division

Mineral Resources Analysis and Identification Division

Office of the Secretary

Legal Affairs Group

Public Sector Development Group

Geological Resource Conservation and Management Division

Internal Audit Group

Ethics Protection Section

Mineral Resources Division

Fossil Protection Division

Information and Communication Technology Center

Office Region of Mineral Resources 1-4

MANPOWER

718 People

3

Executive
Positions

14

Managerial
Positions

297

Knowledge
Worker
Positions

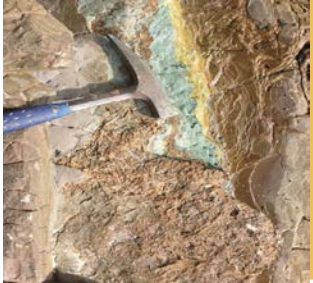

103

General
Positions

301

Government
Employee
Permanent
Staff

188 Geologists, 36 Scientists, 13 Plan and Policy Analysts, 13 Mineral Resources Technical Officers etc.
