

The Minutes of the Meeting
On Thailand-China Marine Geosciences Research Cooperation
Between
The Department of Mineral Resources
Ministry of Natural Resources and Environment
The Kingdom of Thailand
And
The Qingdao Institute of Marine Geology, Geological Survey
Ministry of Natural Resources
The People's Republic of China

Date: Tuesday 6 August 2019

Venue: Ravindra Beach Resort & Spa, Chonburi, Thailand

Pursuant to the visiting of the Chinese Delegation to Thailand during 5-11 August 2019, the meeting on Thailand-China Marine Geosciences Research Cooperation was held at Ravindra Beach Resort & Spa, Chonburi Province, Thailand on Tuesday 6 August 2019 between the Department of Mineral Resources (DMR), Thailand and Qingdao Institute of Marine Geology (QIMG), China. The list of delegations of both sides and the agenda of the meeting are shown in Annex I and Annex II respectively.

During the meeting, both sides have presented and discussed on the cooperation in the area of proposal in the future cooperation as well as the time frame for project agreement signing. After the thorough discussion, DMR and QIMG reached the consensus as follows:

1. DMR and QIMG Presentations

The meeting acknowledged the DMR and the QIMG on presentations from each representative on background and project about activities of marine and coastal geology in both two countries.

2. Agreement on Cooperative Project between DMR and CGS

The meeting has discussed in details and contents of the draft agreement on cooperative project of marine geoscience maps compilation and coastal geohazards. Both sides agreed on the draft of agreement as jointly modified. Both sides acknowledge that the agreement will be signed upon approval of their respective governments.

3. Projects Initiative Discussion

Both sides have discussed in details of the following technical cooperation of project proposals in the future cooperation:

- Atlas of Marine Geological Environment of Thailand
- Remote sensing monitoring and application of beach stability in the Gulf of Thailand
- OBS exploration and Deep structure map compilation in the Gulf of Thailand

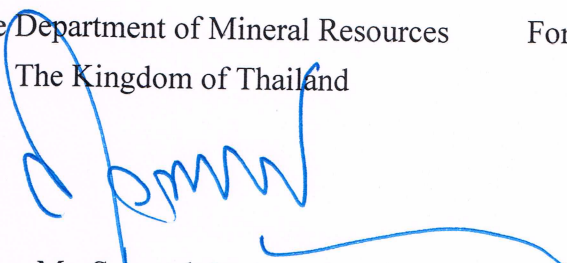

Both sides were aware that all agreed activities would be subjected to their respective approved plan and budget of their respective governments and available funding.

4. DMR Delegation visit The Qingdao Institute of Marine Geology

The meeting acknowledged the delegation of DMR will visit QIMG, CGS, in Qingdao, China during 22-27 September 2019 for discussion in the next stage of the cooperation.

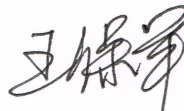

The meeting was held and recorded in Choburi Province, Thailand on 6 August 2019.

For the Department of Mineral Resources
The Kingdom of Thailand

Mr. Suvapak Imsamut
Director of Geological Resources Conservation
and Management Division

For the Qingdao Institute of Marine Geology
The People's Republic of China

Mr. Wang Baojun
Professorate Senior Engineer
Marine Geological Survey Division
